## **FILMPHILIPPINES**

Film Philippines welcomes international productions to a holistic shooting experience in the Philippines - from its lush islands to its urban landscapes - combining ease of business in an English-adept production support and professionals, and now with a cash rebate that offers various selective support schemes on production costs spent in the Philippines. The campaign is designed to stretch the budget for more possibilities for your film projects whether it's for pre-production, casting and location sourcing, shooting your full features, post-production, VFX or animation - a host of world-class services are available for you to work with.

The Film Development Council of the Philippines (FDCP) is the national film agency responsible for film policies and programs to ensure the economic, cultural and educational development of the Philippine film industry.

It aims to encourage the production of quality films and to conduct film-related events that enhance the skills of the Filipino talents.

The agency also leads the film industry's participation in domestic and foreign film markets, and local and international film festivals, and is tasked to preserve and protect films as part of the country's national cultural heritage.
